

Training seminar for Safety Engineers

A key priority of Spanopoulos group is the continuous and effective training of the staff and the creation of acquiring common safety culture in all facilities of our company.

Regarding this issue, a training seminar on health and safety of staff, for Safety Engineers, has been held in our premises with great success. The seminar took place during the period 18 June 2014 to 27 June 2014 and included topics such as:

- Duties and obligations of Safety Engineers
- Advisory responsibilities
- Fire safety
- Personal protective equipment
- First aid
- Practical advices and examples for the safety and protection of staff during working hours

The seminar had over 15 credit hours and took place at Salamis yard.
